"The old playground did not meet current safety standards, but our new Miracle playground is a single, integrated system, which makes a much safer environment for all concerned. Our school has gotten a huge facelift and the students thank us for building them an 'awesome' playground"

*Mike Clemons, Fleetridge Elementary, K thru 5th grade  
Parks & Certified Playground Safety Inspector/  
Project Manager, Raytown, MO*

# “Wow Factor!”

“Parents call the playground the ‘wow factor.’ They are thrilled they went with Miracle because they got more than they ever thought. The kids love every aspect; the mega tower, swing set, climbing apparatus and web climber. The web climber is something they’ve never seen before. The kids get great exercise... and don’t even know it.”

*Eric Marshall, Customer, Jesse James Park  
Director of Parks & Recreation Director for the City of Kearney, MO*

Weigh in with your wow factor by contacting your Miracle playground representative.

# “Love It!”

**“We’ve had a relationship with Miracle since the mid-1960s. Today, our park is 32 acres in size, so putting in three separate Miracle playground sections – each themed with a different color – helps parents keep track of their children better. Kids really enjoy it, and the parents love it!”**

*Kelly Canfield, Campbell Recreation Area  
Parks & Recreation Director for the City of Clive, IA*
