

Dialysis with Dignity

Premier Dialysis Centers

*Make the Choice for
Convenient, Flexible &
Personalized Care*

Premier Dialysis Centers is dedicated to providing superior dialysis treatment for residents of long-term care facilities and patients from the community.

Our professional team works together using technological innovation and offering age-appropriate care and compassion for a positive clinical experience to reduce illness and enhance your well-being.

The Premier Dialysis team knows that when dialysis becomes part of life, it should be administered with the best care, at convenient locations, in comfortable settings, and always with uncompromised dignity.

Premier Dialysis Centers

Fashioned for Flexibility

We know regular treatment is a way of life for many people. We offer multiple therapy shifts during the week to meet your busy life schedule.

Whether you prefer an early morning shift that opens up the rest of your day, a middle of the day shift, or a late afternoon session following a full work day, Premier Dialysis Centers has openings to meet your schedule.

Premier Dialysis Centers are just around the corner, ready to serve you on your time schedule.

“We strive to provide the best care for patients in the community as well as for those in the nursing homes. Unlike many clinics, our centers are small by design to provide dialysis in a more personal setting.”

*Dr. Heidi Joist, Nephrologist
Premier Dialysis Medical Director*

Personalized Care a Priority

We place a high priority on personalized care. Our independently owned and operated facilities are staffed effectively to work with your medical provider to ensure total continuity of care.

Our staff communicates with you and your family through every stage of treatment to assure we meet your unique needs. We offer:

In-Center Hemodialysis - The most advanced medical equipment.

Home Peritoneal Dialysis - Individualized training conducted by our caring staff in our state-of-the-art center or in your home.

High-Quality Care - Leadership from board-certified nephrologists.

Renal Staff Dietitian - Assesses your dietary preferences and consults with your physician and caregivers.

Staff Social Worker - Attends to your psychological and emotional needs and provides valuable resources.

Private and Semi-Private Suites - Relative privacy for the comfort and dignity you may not get from another treatment facility.

Created for Convenience

We believe treatment should not be the center of your life. Our dialysis options conform to your activities and responsibilities.

“The center is convenient and easily accessible. The staff is knowledgeable in patient care, very friendly and courteous. It is a cozy family atmosphere.”

Hendrix Blackburn, Patient

Outpatient services are easily accessible to residents of long-term care facilities we occupy, and are only a short drive for patients in the community.

Don't miss out on meals, therapy sessions or time with family and friends. Choose the convenience of Premier Dialysis Centers and start living with less disruption.
